Education

2021-2025
Bachelors in Computer Science
National University of Computer and Emerging Science (NUCES-FAST)

2018-2020
Intermediate (Pre-engineering)
Punjab College

Skills

- C++
- CSS
- Python
- C language
- HTML
- SQL

Language

English
Urdu
Punjabi

Profile

Results driven computer science student seeking a challenging internship position to apply and enhance technical skills in software development, programming and problem solving. Eager to contribute innovative ideas and collaborate with a dynamic team of professionals to gain real world experience.

Projects

Solar Power Prediction

Created a solar power prediction software using machine learning in a group project. We used random forest as the model and evaluated it through K fold cross validation.

University Complaint Management System

created using C++ with SOLID Principles

Custom Linux Shell

created using C language

Arcade Gaming Database Website

Developed a database management system for arcade gaming center with the use of SQL and asp.net in a group project

Space Shooter Game

Created catch and score game for group project using assembly language

Web Development Projects

Started self learning on web development with the help of a course on udemy. Completed multiple projects on front end web development and is currently on my way to back end development

Major Courses

- Data Structures
- Object Oriented Programming
- Database Management System
- Design and Analysis of Algorithms
- Operating Systems
- Software Engineering
- Artificial Intelligence
